

Cauê Faleiros

Pentest & Offensive Security

✉ contact@faleir0x.com | 🌐 faleir0x.com | 🐙 github.com/faleir0x | 💼 linkedin.com/in/cauefaleiros

SUMMARY

Full-stack developer moving into offensive security, focused on web application and API penetration testing. Building and running production systems (authentication, access control, reverse proxies, centralized logging) shapes how I look for flaws and write practical fixes.

EXPERIENCE

Agência Compór

Full Stack Developer

Ribeirão Preto, SP

Aug. 2026 – Present

- Develop and maintain web applications using Node.js, TypeScript, and React, implementing secure authentication and strict access controls guided by OWASP.
- Manage the production infrastructure with Docker and CI/CD pipelines, centralizing log auditing with Loki and Grafana for rapid incident investigation.

Software Development Intern

Aug. 2025 – Jul. 2026

- Built APIs and backend integrations using Node.js and Express, working directly on database modeling with PostgreSQL.
- Collaborated on bug fixing, code review, and analysis of operational failures to ensure the stability and security of internal services.

IT Department – Ribeirão Preto Medical School, University of São Paulo

Ribeirão Preto, SP

IT Infrastructure Intern

Jul. 2024 – Jul. 2025

- Supported the operation of infrastructure services on Google Cloud Platform (GCP) and assisted with containerized environments using Docker.
- Used Zabbix and Grafana to track corporate network availability and monitor the stability of systems in real time.

EDUCATION

Universidade Paulista (UNIP)

Bachelor of Computer Science

Ribeirão Preto, SP

Jan. 2023 – Dec. 2026

- **Coursework:** Data Structures and Algorithms, Information Security, Databases, Operating Systems

SKILLS

Pentest: Burp Suite, Caido, OWASP ZAP, Nmap, ffuf, Gobuster, SQLmap, Nuclei, Nessus

Scripting: Python, Go, Bash, PowerShell, SQL

Infra: Docker, Grafana, Prometheus, Loki, CI/CD, GCP
